INDEX OF AUTHORS

Volume 46 January–June 1993 Russian Toms 325–327

Aĭzenberg, L. A. *Carleman formulas with a holomorphic kernel and with integration over boundary sets of maximal dimension* 153
Alekseenko, S. N. See Imanaliev, M. I.
Andrunakievich, V. A. and Ryabukhin, Yu. M. *Idempotents and quasiregularity relative to right ideals of algebras* 98
Arutyunov, A. V. *Sign-definiteness of quadratic forms of the calculus of variations with a power degeneracy* 337
Atakhodzhaev, M. A. *On boundary-interior problems for the biharmonic equation* 103
Bakhvalov, N. S. and Èglit, M. È. *On the propagation of small perturbations in weakly heat-conducting and weakly viscous micrononhomogeneous media* 1
Barskiĭ, I. L. *On the behavior of the spectrum of some linear multipoint boundary value problems for ordinary differential equations. The case of an arbitrary number of points* 187
Baskakov, A. G. and Chan Khy·u Bong [Tran Huu Bong] *Spectral properties of bounded solutions of linear functional-differential equations* 74
Berdyshev, A. S. See Salakhitdinov, M. S.
Berdyshev, V. I. *Polynomial approximation connected with navigation over geophysical fields* 157
Berezhnoĭ, E. I. *Inequalities of Hardy type on cones in ideal spaces* 236
Berkolaĭko, M. Z. and Novikov, I. Ya. *On infinitely smooth almost-wavelets with compact support* 378
Bitsadze, A. V. *On a hyperbolic system of first-order quasilinear equations* 455
Boĭmatov, K. Kh. *The generalized Dirichlet problem for systems of second-order differential equations* 403
Boĭmatov, K. Kh. and Sharifov, A. *Coercive properties of nonlinear Schrödinger and Dirac operators* 258
Botkin, N. D. *Asymptotic behavior of solutions of differential games. Sets of viability of differential inclusions* 8
Brykalov, S. A. *Problems with monotone nonlinear boundary conditions* 108
Buevich, V. A. *On τ-completeness in the class of determinate functions* 264
Burgin, M. S. *Universal limit Turing machines* 79
Chan Khy·u Bong [Tran Huu Bong]. See Baskakov, A. G.
Davydov, O. V. *On the approximation of individual functions by rectangular Fourier sums* 444
Demidenko, G. V. *Integral operators defined by boundary value problems for quasielliptic equations* 343
Denisov, V. N. *On the asymptotics of the solution of the Cauchy problem for parabolic equations* 43

Derkach, V. A. and Malamud, M. M. *Inverse problems for Weyl functions, pre-resolvent and resolvent matrices of Hermitian operators* 190
Èglit, M. È. See Bakhvalov, N. S.
Egorov, A. A. *On the stability of classes of affine mappings* 59
Èntov, M. R. *On real Morsifications of the singularities D_μ* 25
Èshonkulov, B. O. See Radkevich, E. V.
Filinkov, A. I. See Mel'nikova, I. V.
Fishman, L. Z. *On preservation of the character of the boundary of the stability region of a continuous system when it is replaced by a discrete system constructed by the Runge-Kutta method* 426
Gadyl'shin, R. R. *On a system of imbedded resonators* 383
Gasanov, M. G. See Maksudov, F. G.
Gel'fand, I. M., Graev, M. I., and Retakh, V. S. *Difference analogs and q-analogs of general hypergeometric systems of differential equations* 30
Glushak, A. V. and Repnikov, V. D. *On stabilization of a solution of the Cauchy problem for a first-order differential equation in a Banach space* 245
Graev, M. I. See Gel'fand, I. M.
Gurvich, V. A. and Temkin, M. A. *Checked perfect graphs* 248
Gurvich, Vladimir A. *Bilinear forms of enumerated graphs* 36
Imanaliev, M. I. and Alekseenko, S. N. *On the theory of systems of nonlinear integro-partial differential equations of Whitham type* 169
Isyangil'din, A. Kh. See Sabitov, K. B.
Ivanov, V. K. and Tanana, V. P. *On the well-posedness of conditionally well-posed problems in locally convex spaces* 165
Karepov, O. V. and Tarkhanov, N. N. *The method of Fischer-Riesz equations in the ill-posed Cauchy problem for systems with injective symbol* 354
Kheĭfits, A. I. *The Dirichlet problem in a half-space for the Schrödinger operator with boundary data of arbitrary growth at infinity* 149
Khlobystov, V. V. See Makarov, V. L.
Kholshchevnikova, N. N. *On the properties of thin sets for trigonometric series and certain other series* 477
Khrennikov, A. Yu. *Axiomatics of p-adic probability theory* 373
———. *Noncommutative functional analysis* 332
Kisil', V. V. *The algebra of two-sided convolutions on the Heisenberg group* ... 12
Kostin, V. A. *The Cauchy problem for an abstract differential equation with fractional derivatives* 316
Kozhanov, A. I. *On properties of solutions for a class of pseudoparabolic equations* 359
Krutitskiĭ, P. A. *An explicit solution of the Dirichlet problem for an equation of composite type in a multiply connected domain* 63
———. *Solution of a hyperbolic boundary value problem as a result of applying the principle of limiting amplitude to an initial-boundary value problem for an equation of composite type* 118
Kudryavtsev, G. Yu. *On the time for solution of labyrinth problems by finite automata* 320
Kuzbekov, T. T. See Napalkov, V. V.
Kuzin, I. A. *On some imbedding theorems for Kreĭn-Pontryagin type spaces and their application to periodic problems* 70
Kytmanov, A. M. and Nikitina, T. N. *Removable singularities of CR-functions on generic manifolds* 279

Lavrik, A. F. *An approximate functional equation for the zeta-function and a segment of the Euler product over prime numbers* 201
Leĭko, S. G. *Extremals of rotation functionals of curves in a pseudo-Riemannian space, and trajectories of spinning particles in gravitational fields* 84
Leont'ev, V. O. *The asymptotics of the approximation of differentiable functions by a Fourier series* 210
Lëvshina, G. D. *Some properties of Lipschitz functions in the unit disc and in the unit ball* 205
Litmanovich, O. Yu. See Zavgorodniĭ, M. G.
Lomov, S. A. *Pseudoanalyticity and the problem of a mathematical description of the boundary layer* 47
Makarov, V. L. and Khlobystov, V. V. *Hermite interpolation of operators in Hilbert spaces* 436
Maksudov, F. G. and Gasanov, M. G. *On the variational theory of the spectrum of operator pencils* 126
Malamud, M. M. See Derkach, V. A.
Mamedov, M. A. *Turnpike theorems for integral functionals* 174
Matveev, O. V. *On certain methods of recovering functions of n variables defined on chaotic nets* 324
Mel'nikova, I. V. and Filinkov, A. I. *The integrated family of M,N-functions*. 214
Mikhailov, G. A. *New algorithms of the Monte Carlo method for solving the Helmholtz equation* 387
Napalkov, V. V. and Kuzbekov, T. T. *On generators in some rings of analytic functions* 131
Nefedov, N. N. *Contrast structures of spike type in nonlinear singularly perturbed elliptic equations* 410
Netrusov, Yu. V. *Interpolation (real method) of spaces of smooth functions with the space of bounded functions* 178
———. *Spectral synthesis in spaces of smooth functions* 135
Ngo Fu Tkhan' [Ngo Phu Thanh]. See Radyno, Ya. V.
Ngo Phu Thanh. See Radyno, Ya. V.
Nikitina, T. N. See Kytmanov, A. M.
Novikov, I. Ya. See Berkolaĭko, M. Z.
Ovezova, M. M. *On the solvability of Darboux problems for a hyperbolic system* 17
Pal'tsev, B. V. *On fast iterative methods with boundary-condition splitting for a multidimensional system of Stokes type. Periodic "flows" between parallel walls* 139
Passare, M. and Tsikh, A. *On connections between the local structure of holomorphic mappings, multidimensional residues, and generalized Mellin transforms* 88
Petukhov, A. P. *On approximation of functions by convolution operators in the Hausdorff metric* 440
Pokhozhaev, S. I. *On sharp a priori estimates for some superlinear elliptic equations* 464
———. *On the smoothness of solutions of certain superlinear elliptic equations* 448
Popov, A. N. See Popov, N. A.
Popov, N. A. and Popov, A. N. *Paradoxes in classical logic* 330
Prokhorov, V. A. *On approximation of analytic functions by rational functions* 469
Rabinovich, V. S. *The Fredholm property of general boundary value problems on noncompact manifolds, and limit operators* 53

Radkevich, E. V. and Èshonkulov, B. O. *On the existence of a classical solution of the problem of impregnating glassy polymers* 92
Radyno, Ya. V., Ngo Fu Tkhan′ [Ngo Phu Thanh] and Ramadan, Sabra *The Fourier transform in an algebra of new generalized functions* 414
Ramadan, Sabra. See Radyno, Ya. V.
Repnikov, V. D. See Glushak, A. V.
Retakh, V. S. See Gel′fand, I. M.
Rodionov, E. D. *Compact five-dimensional homogeneous Einstein manifolds.* 473
Russakovskiĭ, E. M. *A matrix Sturm-Liouville problem with spectral parameter in the boundary conditions. The theory of V-Bézoutians* 182
Ryabukhin, Yu. M. See Andrunakievich, V. A.
Rybkin, A. V. *On a functional calculus for contractions with absolutely continuous spectrum and an operator Carleson measure* 282
Sabitov, K. B. and Isyangil′din, A. Kh. *A problem of Tricomi type with a nonlocal conjugation condition for an equation of mixed type* 364
Salakhitdinov, M. S. and Berdyshev, A. S. *Boundary value problems for a parabolic-hyperbolic equation in a domain with deviation from a characteristic* 452
Sedykh, V. D. *Invariants of convex manifolds* 392
Sevryuk, M. B. *Invariant tori of invertible systems in the presence of additional even coordinates* 286
Shadrin, A. Yu. *On sharp constants in inequalities between L_∞-norms of derivatives on a finite interval* 231
Shagalova, L. G. See Subbotin, A. I.
Sharifov, A. See Boĭmatov, K. Kh.
Shatalov, V. E. See Sternin, B. Yu.
Shlapunov, A. A. See Tarkhanov, N. N.
Shmarev, S. I. *On free boundary properties for a class of degenerate parabolic equations of filtration theory* 296
Sofronov, I. L. *Conditions for complete transparency on the sphere for the three-dimensional wave equation* 397
Sternin, B. Yu. and Shatalov, V. E. *On a global integral representation of complex-analytic functions on a Stein manifold* 369
Subbotin, A. I. and Shagalova, L. G. *A piecewise linear solution of the Cauchy problem for the Hamilton-Jacobi equation* 144
Suleĭmanov, B. I. *The Stokes isomonodromy phenomenon and nonlinear effects near a caustic cusp* 220
Tanana, V. P. *On the solution of ill-posed problems in locally convex spaces...* 254
———. See Ivanov, V. K.
Tarkhanov, N. N. See Karepov, O. V.
Tarkhanov, N. N. and Shlapunov, A. A. *Bases with double orthogonality in the Cauchy problem for systems with injective symbol* 225
Temkin, M. A. See Gurvich, V. A.
Tlyusten, S. R. *Multivalent conformal mappings with composite free boundary* 21
Tolstykh, A. I. *On iteration schemes with noncentered compact approximations* 290
Tramov, M. I. *Oscillatory properties of linear differential equations with deviating argument* 419
Tran Huu Bong. See Baskakov, A. G.
Trofimov, V. P. See Zubova, S. P.
Tsikh, A. See Passare, M.

Vagabov, A. I. *Asymptotics of solutions of differential equations with respect to a parameter, and applications* 240
Vakhrameev, S. A. *Morse theory for a class of optimal control problems* 269
Vlasov, V. V. *On a class of differential-difference equations in Hilbert space, and some spectral questions* 459
Volkov, M. V. *Semigroup varieties with a modular lattice of subvarieties* 274
Vorob'ev, O. Yu. *The calculus of set-distributions* 301
Yarmukhamedov, Sh. *On harmonic extension of continuous functions defined on a piece of the boundary* 431
Zastavnyĭ, V. P. *Positive definite functions depending on a norm* 112
Zavgorodniĭ, M. G. and Litmanovich, O. Yu. *An analog of a theorem of Keldysh for a multipoint problem of de la Vallée Poussin* 307
Zeragiya, D. P. *The existence of a bifurcation point for a class of nonlinear operators* 198
Zhuk, V. V. *On the question of convergence of a trigonometric Fourier series at a point* 349
Zubov, V. I. *Approximation in the large of bounded continuous real vector-valued functions in the uniform metric* 115
———. *Differential equations for functions of several independent variables, and their application* 311
Zubova, S. P. and Trofimov, V. P. *On particular solutions of a differential equation in a Banach space, with a small parameter on the derivative* 161
